FRONTEND SOFTWARE ENGINEER

I am a frontend software Engineer with a background in Engineering and IT skills. I possess strong skills in problem solving, creative thinking, communication and collaboration that leads to quality products & results. I am a passionate programmer and a quicker learner, and I easily adapt to new environments. I am very good at team-work and goal oriented.

TECHNICAL SKILLS

Languages: Javascript, CSS, HTML

Version Control: Git, GitHub

Tools: VS Code

Frameworks/Libraries: React/ React hooks

TECHNICAL PROJECTS

My portfolio - GitHub FrontEnd: github.com/Doziechuks/obodozie_chuka | Live Site: <https://obodoziechuka.vercel.app/>

My personal portfolio web application I built with React/React hooks.

- I used React Hooks for state management and to keep information organized.
- I integrated Emailjs for the contact us.
- I used CSS for styling
- I deployed with Vercel for frontend

E-commerce app - GitHub FrontEnd: github.com/Doziechuks/glamour-clothing-app | Live Site:

<https://glamour-clothing-app.vercel.app>

An e-commerce cloth shopping application I built with React/React hooks.

- I used React Hooks and Redux/react-redux to manage local state and global state respectively and to keep information organized
- I integrated Firebase to login, sign-up, and sign-in with google
- I integrated paystack for online payments
- I used CSS for styling
- I deployed with Vercel for frontend

Jinli Shop web app - GitHub FrontEnd: github.com/Doziechuks/Jinli-portfolio | Live Site:

<https://sample-gamma-nine.vercel.app>

A shop page web application I built with React/React hooks.

- I used React Hooks and Redux/react-redux to manage local state and global state respectively and to keep information organized
- I used CSS for styling
- I deployed with Vercel for frontend

To-do list - GitHub Frontend: github.com/Doziechuks/mydaily_to-do_list | Live Site: mydaily-to-do-list.vercel.app/

A to-do list created with JavaScript. Users can create daily activities on the app. It has a checkbox to tick completed activities and a delete button for removing any activity, this enhances its flexibility. It also has an updated date and time.

- I used vanilla JavaScript to create functionalities
- I used browser local storage for storing data.
- I manipulated and traversed the DOM using event handlers
- I used CSS for styling
- I deployed with Vercel for frontend

PROFESSIONAL EXPERIENCE

- I gained hands-on experience with JavaScript, CSS, HTML, and tech principles whilst working on team/individual projects, and pair programming sessions.
- I work as a frontend dev instructor and programmer at Technobs digital solutions.
- I lead a team of data analysts using Microsoft Excel and also a lead researcher in a research institute.
- I worked as a quality control and assurance personnel in a plastic production firm.
